COMPANY OVERVIEW

OSANTS provides end-to-end global sourcing and supply chain solutions for custom industrial components.

We specialize in sourcing custom metal fabrications, power transmission systems, and electrical components from established manufacturing overseas.

Our integrated sourcing model reduces procurement risk, ensures consistent quality, and delivers cost-effective solutions for mission-critical industrial, transportation, and defense equipment.

For more than two decades, OSANTS has supported manufacturers, government contractors, and equipment suppliers with reliable sourcing, technical expertise, and comprehensive supply chain management from engineering support and supplier qualification to final delivery.

Our greatest value is the peace of mind we deliver to our partners through transparent communication, disciplined execution, and dependable results.
